

BrightStar Healthcare to add 3 locations in region in '07

Chicago-based BrightStar Healthcare is expanding its services to Tucson.

The healthcare staffing agency, which specializes in providing both medical and nonmedical private duty homecare and health-care staffing to corporate clients, has plans for three locations to open in the region by the end of 2007.

The expansion into the local market is part of a national growth plan that calls for more than 400 locations nationwide by the end of 2010.
